

FELIPE GARCIA

Backend Java Developer

Santa Fe, Argentina | +54 9 3408 67 4790 | pipeg1069@gmail.com | [linkedin.com/in/felipe-garcia-dev](https://www.linkedin.com/in/felipe-garcia-dev) | github.com/Pipe-Garcia | [Personal Portfolio](#)

PROFESSIONAL SUMMARY

Backend developer focused on Java and Spring Boot, with a strong interest in REST APIs, business logic, security, and maintainable architecture. I built a full-stack commercial, inventory, and delivery management solution for a real company, working with Java 17, Spring Boot, Spring Security with JWT, JPA/Hibernate, MySQL, Flyway, Docker Compose, and web frontend integration. I am currently deepening testing, CI/CD, deployment, and more production-oriented engineering practices.

CORE STACK

Java, Spring Boot, Spring Security JWT, JPA/Hibernate, MySQL, Flyway, Maven, Docker Compose, HTML, CSS, JavaScript, Git, Postman, React

HIGHLIGHTED EXPERIENCE

Java Backend / Full-Stack Developer - Commercial and Inventory Management System

Decomat S.R.L. | Santa Fe, Argentina | Mar 2025 - Mar 2026

Built a full-stack solution for a real company focused on sales, quotations, materials, inventory, deliveries, and commercial operations. Worked on real business requirements, workflow validation, domain modeling, REST API design, business rule implementation, JWT-based security, persistence with JPA/Hibernate and MySQL, Flyway migrations, Docker Compose, and frontend-backend integration.

SELECTED PROJECTS

Commercial, Inventory and Delivery Management System - Decomat S.R.L. | *Java 17, Spring Boot, Spring Security JWT, JPA/Hibernate, MySQL, Flyway, Docker Compose, HTML, CSS, JavaScript*

Main project built for a real company. Includes business logic, role-based security, inventory, sales, quotations, deliveries, and audit flows.

Professional Portfolio | *React, Vite, JavaScript, CSS*

Multilingual portfolio with dark/light mode, featured case study, screenshots, repository links, and a presentation focused on real development experience.

Bazar REST API | *Java, Spring Boot, Spring Data JPA, MySQL, Postman*

Sales-oriented REST API with layered architecture, DTOs, validation, and custom queries.

EDUCATION

Higher Technician in Software Development

I.S.P.I. No. 4021 ICOP Santa Fe | Graduated in March 2026
